Experience

Exascend

Frontend Developer

September 2023 - June 2025 (1 year 10 months)

Taiwan

- Initiated and led the end-to-end development of two customer-facing websites from the ground up using HTML, CSS, and JavaScript, translating product requirements into technical implementations, growing monthly active users by 350% and increasing average session engagement time by 22.3%.
 - Designed and implemented a custom JavaScript event-tracking system that sent structured POST calls to CRM and GA4 APIs, mapping user interactions (form submissions, click events) to structured data schemas, automating cross-platform data capture and reducing manual reporting workload by 70%.
 - Conducted technical SEO and accessibility audits using Google Search Console, Lighthouse, and WCAG evaluation tools; implemented iterative improvements validated through A/B testing on content, visual design, and user flows, driving a 48.84% increase in page views and ensuring inclusive and safe user experiences.
1. Cinema Memory Cards Website - Achieve the goal of 83.7% views per user and 22.3% growth of engagement time.
 - Project Role: Project owner responsible for identifying requirements, creating project strategy, roadmap planning, developing and launching the website.
 2. Embedded SSD Website - Target to enhance user experience, functionality, and content presentation with a focus on driving conversions.
 - Project Role: Project owner responsible for identifying requirements, creating project strategy, roadmap planning, developing and launching the website.
- Data Analytics

- Monthly reports: Generate monthly reports for website, advertise, and campaign performance and provided valuable insights for the executive team's decision-making by analyzing data from a strategic point of view.

- SEM

- Designed, applied, and monitored the 2B product Google Ads campaign structure, achieving the goal of \$3,000 less of cost per conversion.

GoFreight

2 years 7 months

Growth Marketer | Marketing Project Manager

July 2021 - March 2023 (1 year 9 months)

- Website & Content Strategy

- SEO: Planned keywords, new sitemap structure, and schema to increase users and page-views. (In 2021 to 2022, achieved a 20.2% growth in users and 34.4% growth in page-views)

- Conversion Rate Optimization: Planned and executed website experiments to increase conversion rate from 0.38% (in Sep.) to 2.55% (in Nov.).

- Technical SEO: Improved and monitored page speed (increased Lighthouse score from 20 to 70).

- SEM

- Google Ads: Utilized different types of campaigns to lower the advertising cost per demo from \$5,000 to below \$2,000.

- Baidu Ads: Expanded the China market through Baidu Ads, generating \$3,150 in inbound pipeline.

- Data Analytics

- Experience in implementing GA and GA4, as well as setting up GA events and collecting CRM data.

- Leveraged data visualization tools such as Data Studio (Looker) and Tableau.

- Provided valuable insights for the executive team's decision-making by analyzing data from a strategic point of view.

- SEO Migration: Planned and executed SEO Migration Strategy to reduce the impact of domain change. The primary target keyword only dropped one rank after the SEO migration.

- Offline Event: Organized and planned the process, workflows, and materials of JCTrans GFFC 12th event, achieving a \$16,500 target pipeline.
